Fujinon, Inc.
West Bay Business Park
2621A Manhattan Beach Blvd.
Redondo Beach, CA 90278

Dear sirs;

Enclosed is a Fujinon A16x9BERM-28 lens. There is a number decal on the macro focus/back focus ring, **91501816** (is this the serial number?)

The front element has several pits or digs. Please replace the front element.

Also, please clean and re-lubricate the lens. I've only noticed "grittiness" when operating the back focus/macro focus ring – all other barrels/rings operate smoothly.

Sergeant First Class Jeffrey Watson will provide the VISA car number to pay for the repair and service. Please contact him with the repair estimate at (916)854-3164.

If you have any questions, our video technician, SSG Warren Savage, can be reached weekdays at (916)854-3783. Our return FAX number is (707)437-5891
